

Melat Mekonnen

✓ Frontend Developer ✓ UI/UX designer

ABOUT ME

My passion for software engineering blossomed early on, fueling my decision to pursue it at Bahir Dar University. My journey began in Desssie Catholic Kidanemihret School, where a foundation of academic excellence was laid (straight A's in the Grade 10 Matric exam!). This dedication continued through high school, culminating in a strong score of 561 in the national exam. Now, as a 3rd-year software engineering student at Bahir Dar University, I'm actively honing my skills and transforming my passion into practical knowledge. With unwavering determination and a touch of divine guidance, I'm excited to see what the future holds in this ever-evolving field..

EDUCATION

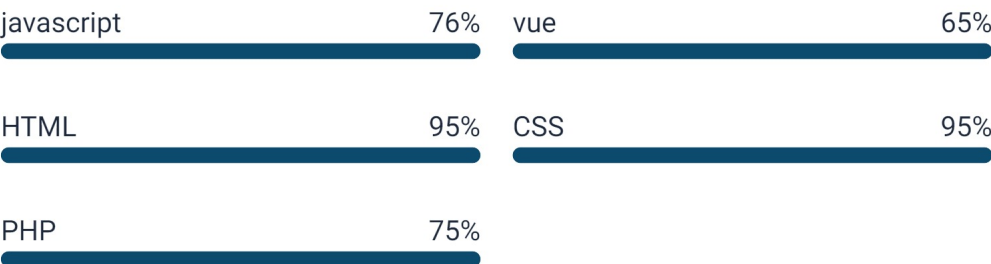

2022-02-02 - 2024-12-03

Bahirdar University

I am attending software engineering in Bahirdar university ,polytechnic campus now I'm 3rd year student
